Variable Rate Accounts:

The dividend rate and annual percentage yield may change every quarter as determined by the credit union's board of directors.

Compounding:

Dividends will be compounded quarterly and credited quarterly. The dividend period is a quarter. The beginning date of the first dividend period of the calendar year is January 1 and the ending date is March 31. All other dividend periods follow this pattern of dates. The dividend declaration date is the date the credit union's board of directors declares a dividend for the preceding dividend period.

Effect of Closing an Account:

If you close your account before the end of the dividend period, you will not be paid the accrued dividends for the period.

Minimum Deposit and Balance Requirements:

To open a club account, you must (1) have a regular share account, and (2) deposit a minimum of \$5.00. To earn the annual percentage yield disclosed, you must maintain a minimum daily balance of \$5.00 for each day of the dividend period. You will not earn dividends for any day that your balance drops below \$5.00.

Maximum Withdrawals:

Holiday Club – One withdrawal (via automatic transfer to your share account) will occur on November 1
Vacation Club – Two withdrawals per calendar year at member's discretion
Education Club – Four withdrawals per calendar year at member's discretion

Dividend Calculation:

Dividends are calculated using the daily balance method. This method applies a daily periodic rate to the balance in the account each day.

When Dividends Begin to Accrue:

Dividends begin to accrue on cash and non-cash deposits, such as checks, on the business day you make your deposit.

Nature of Dividends:

Dividends are paid from current income and available earnings, after required transfers to reserves, at the end of a dividend period.
